

Greener Places Strategy

Engagement summary

Between 8 August and 5 September 2019 Central Coast Council sought community feedback on the draft Greener Places Strategy.

The Strategy is being developed to promote, maintain and enhance urban greening across the Central Coast by planting and maintaining trees in public areas.

The draft, Central Coast wide strategy includes mechanisms to sustain and enhance the urban forest canopy across all land parcels in the urban suburbs of the Central Coast.

What's next?

We are currently reviewing the submissions we received during community consultation, and the feedback we received will play help shape the final Strategy.

Once finalised, the Strategy will be presented to Council for adoption.

We will inform the community on the outcome in the coming months.
