Swing Set

8

Talking Tubes

**9**

### **Accessible Concrete Path Network**

The accessible concrete path network has been designed to provide a connection between existing footpaths, picnic shelters and surround the new playspace footprint.

**10**

### **Playspace Perimeter Fencing**

Partial enclose of Playspace protects users from adjacent car parks and Bay Road to the West. The open area provides a linking between the playspace and remainder of Swadling Reserve.

**13**

### **Bench Seating**

Various bench seating included around the concrete pathway with areas provided alongside to allow for wheelchair and pram parking.

**15**

### **Bin Enclosures**

2 x dual bin enclosures will be positioned on site to ensure landfill and recycling waste can be easily disposed.

**16**

### **Shade**

The importance of shade is recognised and the playspace designed to incorporate natural shade from existing, established trees. This will be supplemented by multiple shade sails across various equipment items.

**Other**

### **Softfall Undersurfacing**

The existing playspace contains entirely mulch undersurfacing. The upgraded facility will include a combination of certified rubber and mulch material across the site.
