

PART E

The Way Forward

Maintaining our
Vision and Direction
for Growth.

Being Responsive to
Opportunities and
Flexible in Delivery.

A COMPREHENSIVE LOCAL ENVIRONMENTAL PLAN

The LSPS Framework sets the vision for how growth needs to be directed. The Framework establishes principles and objectives that must be followed by Council and relevant stakeholders to lead, manage and implement growth across the Central Coast.

The draft LSPS responds to the goals and directions of the NSW State Government's Central Coast Regional Plan 2036, and Council's One Central Coast Community Strategic Plan 2018, thus presenting the strategic land use direction for future growth and development of the Central Coast.

Our current planning controls allow for a significant amount of growth. Review and revision of Council's planning controls in consideration with the Local Strategic Planning

Statement, will be delivered as part of Council's comprehensive review of the Local Environmental Plan (LEP) and the Development Control Plan (DCP).

As a next step, many of the transformative ideas in this statement will result in strategies and studies being undertaken that will inform a new Local Environmental Plan for the Central Coast.
