

Lake Munmorah Recreation Facility

Engagement Summary

Between 11 June and 30 June 2020 Central Coast Council sought community feedback on the draft concept design for the new Lake Munmorah Recreation Facility.

Council is planning to construct a regional level playspace and district skate park in Lake Munmorah that will encourage social engagement and an active outdoor lifestyle. This recreation space will become a destination facility for the Lake Munmorah area and the wider community of the Central Coast.

Engagement Results

The community was invited to view a draft concept in both plan and video that was made by our design consultant, Convic. There was also an opportunity for the community to complete an online survey to give their opinion on what was liked and disliked about the draft concept design.

During this community consultation period:

- The draft concept presentation video received **964** views.
- **39%** of survey respondents chose the playspace as their favourite part of the new facility, while **31%** of respondents said the skate park as their favourite part of the new facility.

What's next

Convic are now reviewing the survey results that were received during community consultation, and the feedback we received will help shape the final concept design.

We will present the the finalised plans to the community in the coming months.
