

Susan Fahey Park Playspace Engagement summary

Between 9-24 September 2019, Central Coast Council sought community feedback on the new inclusive and engaging district-size playspace being built at Susan Fahey Park, Copacabana.

This playspace will provide a wide variety of play opportunities for a range of ages, abilities and backgrounds for both the local community and the high volume of seasonal visitors to the area.

During this consultation period, a drop-in information session was held at Copacabana Surf Life Saving Club, on 10 September from 4-6pm. Additionally, an online pre-design survey was available for all community members to complete on yourvoiceourcoast.com.

What's next?

We are currently reviewing the feedback we received during the consultation period.

This feedback will play an important part in the next step of developing a concept design for the new district playspace based on community needs.
