

# Mountain Bike Feasibility Study

## Engagement summary

Between 5 June and 2 July 2019 Central Coast Council sought community feedback as part of a Mountain Bike Feasibility Study – to assist in planning for recreation in Council’s natural reserves.

We developed an online survey to help understand current community views, demand, utilisation, opportunities and risks for mountain bike riding on the Coast. We encouraged everyone to respond to the survey and to provide feedback by 2 July 2019 – from all Coastie community members and visitors, including mountain bike riders, environmentalists and nature reserve users.

### What’s next?

We are now reviewing the data gathered from the first phase of the Mountain Bike Feasibility Study, before a discussion paper is produced and made available to the public.
