Purpose

The purpose of these Works-In-Kind (WIK) Guidelines is to ensure that there is a transparent and consistent approach to the lodgement, assessment and conditioning of a WIK Agreement relating to Water Management Act matters.

This Guideline is to be utilised in the assessment and negotiation of proposals seeking to provide a material public benefit in the form of WIK, in lieu of full or partial satisfaction of Section 306 Requirements Letter requiring payment of Water and Sewerage Developer Charges levied in accordance with a Water Supply and Sewerage Development Servicing Plan under the provisions of the *Water Management Act, 2000 (NSW)*.

Scope

These Guidelines are to be utilised and applied by all personnel employed by Council, any person or organisation contracted to or acting on behalf of Council, any person or organisation employed to work on Council premises or facilities, and all activities of the Council, who is/are involved in the assessment, evaluation, negotiation, refusal or execution of WIK Agreements relating to Water Management Act matters.

These Guidelines have also been prepared for the information of Applicants that have received a Section 306 requirements letter subject to a Developer Charges payment condition, and who propose the provision of material public benefits in the form of WIK as full or partial satisfaction of such a payment.

Background

1. The Act permits Councils to collect Water and Sewerage Developer Charges to contribute to the provision of Water Supply and Sewerage infrastructure required to serve the needs of the community.
2. The purpose and value of Water and Sewerage Developer Charges are defined by Water Supply and Sewerage Development Servicing Plans (DSP), prepared and adopted by Councils and subsequently registered with the Independent Pricing and Regulatory Tribunal (IPART).
3. When a development is provided a Section 306 Requirements Letter, the payment of Water and Sewerage Developer Charges are applied as conditions (including required timing of payment) that must be met before a Section 307 Certificate of Compliance can be granted.
4. In some cases, applicants may apply to provide a material public material public benefit in the form of WIK, in lieu of full or partial satisfaction of the conditioned Water and Sewerage Developer Charges.

5. Council recognises that the provision of WIK offer an alternative solution for the timely delivery of trunk infrastructure to service development and realises efficiencies in asset delivery.

DRAFT

Procedure

Applications to Undertake WIK

6. Council is under no obligation to accept offers to enter into WIK Agreements.
7. Applications to undertake WIK will be progressed in accordance generally with the process as outlined at Appendix A to these Guidelines.
8. Council will only consider applications to enter a WIK where the relevant Development Servicing Plan provides that a WIK can be entered into for the carrying out of works in full or partial satisfaction of Developer Charges payable shown on a Section 306 Requirements Letter.
9. Applications to enter into WIK Agreements will only be considered where the proposed works meet the eligibility requirements described in the relevant Water Supply and Sewerage Development Servicing Plan.
10. The dedication of land to Council, or creation of easements associated with new Water and Sewerage assets is not considered as a WIK. The creation of suitable land tenure to support the construction and ongoing operation of the assets by Council is the Applicants responsibility.
11. Formal applications to enter into Works-In-Kind Agreements may only be made after the issuing of a Section 306 Notice of Requirements and where the relevant DSP provides for works in kind to be undertaken. However, an applicant may approach Council in relation to a proposed works in kind agreement either before or after the issuing of a Section 306 Requirements Letter.
12. Applications to enter into a WIK Agreement must be lodged in a format as prescribed by Council, supported by the payment of the relevant fees as described by Council's Fees and Charges applicable at the time of lodgement.
13. Any variation sought by an Applicant to the standard WIK Agreement template (at Appendix B of this Policy) proposed by an Applicant must be documented with relevant and appropriate supporting justification, lodged at the same time as the WIK Application.

Evaluation and Negotiation of proposed WIK

14. Negotiation of Works in Kind Agreements may only be undertaken by the Team Leader Water Assessments and Senior Development Engineer positions. The applicable Section Manager and Unit Manager may also be involved if required.
15. All Works-In-Kind Applications and their evaluations will be referred to the Section Manager Water Services & Design for review and endorsement.

16. Council will only offset developer charges payable under the DSP for the works shown in that DSP works schedule which is the subject the works in kind agreement.

17. Any proposal to undertake Works-In-Kind which are not identified within the applicable DSP Works Schedule must satisfy the following criteria before being considered or accepted by Council:

The works form part of a Water Supply and Sewerage Servicing Strategy which has been approved by the Water Services and Design Section which is responsible for network planning.

The works are not defined as temporary or reticulation assets as described within the applicable DSP.

An applicable rate for the value of the proposed asset type is contained within the applicable DSP. In the absence of such a rate, the consideration of rates consistent with Council's last audited asset valuation of Water Supply and Sewerage Assets may apply

18. All Works-In-Kind Applications will be evaluated against the following criteria:

the nature and extent of Works-In-Kind proposed, in terms of the:

- i. value of the works,
- ii. the priority for infrastructure delivery; and
- iii. context with proposed development and any adjoining development;

whether the DSP contains an applicable rate to value the proposed works based on the relevant asset type. In the absence of a rate for that asset type, Council may consider rates consistent with Council's last audited asset valuation of Water Supply and Sewerage Assets;

the value of existing funds available within the relevant DSP. This may impact the timing of any net refund payable to a Applicant where the value of the works in the agreement exceed the value of the Developer Charges payable;

the design, maintenance burdens, standards and delivery timing of the proposed works

any likely or potential precedent that may be created by the acceptance of the Works-In-Kind and/or whether works will/will not prejudice the timing/delivery of public services in the Contributions Plan work program;

any proposed variations to the standard Works-In-Kind Agreement template by the applicant or Council;

if Council could deliver the works and achieve a better value for money outcome while not unnecessarily delaying the associated Development;

Background check of the Applicant and/or Developer (e.g. financial security etc.) dependant on the risk profile of the asset being constructed.

19. As part of the evaluation of the Works in Kind Agreement, Council staff with relevant technical and specialist skills may be requested to comment on the contents of the proposed Works-In-Kind, including but not limited to designs, construction standards, maintenance costs etc.
20. All WIK Applications and their evaluations will be referred to Council's Development Contributions Committee (DCC) for review.

Acceptance and Execution of WIK Agreements

21. The DCC may require further amendments to the WIK Agreement before finalisation and approval of a WIK application.
22. In the event the DCC decline to support a WIK Application, the decision of the DCC is final. Any revised proposal must be re-lodged as a new WIK Application.
23. Advice will be provided for the information of the Applicant if the DCC declines to support a WIK Application. This advice will outline the reasons for the refusal of the WIK Application.
24. In the event the DCC agree to support a WIK Application, Council's Delegate with the requisite level of financial delegation (in accordance with Council's Delegation of Authority Policy) will be briefed, and the Applicant will be advised.
25. All costs (including legal costs) and fees associated with the assessment of a WIK Application and the drafting, review and finalisation of the WIK Agreement are to be borne by the Applicant. Upon request and prior to the lodgement of a WIK Application, a written quote for the anticipated costs and fees will be provided to the Applicant.
26. Council will issue a quotation to the Applicant for such costs, which must be accepted by the Applicant, prior to the draft WIK Agreement being issued to Council's Legal Unit for review.
27. Council's Legal Unit may require amendments to the draft WIK Agreement. Council's Team Leader Water Assessments will act as the liaison between the Applicant and Council's Legal Unit.
28. Once a WIK Agreement is agreed to by all parties, the Applicant will be required to sign two copies of the WIK Agreement in the presence of a witness, and return to Council for execution by

the relevant delegate of Council. One copy of the WIK Agreement will be returned to the Applicant.

29. The authority to endorse and execute a WIK Agreement is to be based on the financial delegations of Senior Management on the Development Contributions Committee, or the CEO, whichever is attributable to the financial value of the WIK.

Registration of the WIK Agreement

30. A completed WIK Agreement will be recorded on a register maintained by Council and recorded in Council's Record Management System.

Section 306 Notice of Requirements Letter

31. Any Section 306 Requirements Letter will itemise the Developer Charges payable under any relevant Water Supply and Sewerage Development Servicing Plan (DSP).
32. Works within a DSP with a direct nexus to the development will be conditioned within a Section 306 Requirements Letter.
33. Generally, works within a Water Supply and Sewerage DSP will not be conditioned within a Section 306 Requirements Letter where there is an insufficient nexus to the development.
34. Notwithstanding the above, Council may impose conditions for works required by a Water and Sewer DSP if the work is required at the development to avoid future delivery inefficiencies if the works were undertaken at a later date (e.g. restoration after future roadworks or future stormwater asset creation).
35. The arrangements of a WIK Agreement cannot be conditioned within a Section 306 Requirements Letter.

Further Assessments and Development Consents

36. The Applicant will be responsible for obtaining any necessary development consents, approvals and/or permits prior to the commencement of the works. This may result in the need for additional approvals specific to the creation of the works. Council's Water Authority will not issue approval under Part 5 of the Environmental Planning & Assessment Act for proposed works.

Payment and Release of Securities

37. All WIK Agreements will require payment of securities.

38. The securities will be retained by Council.
39. The value of the security is to be set at 5% of the total value of the Works to be delivered as defined in the WIK Agreement. The total value of the security bond and the timing for its payment is to be set out in the WIK Agreement.
40. Refund of securities will be associated with the completion of relevant deliverables as set out within the WIK Agreement.
41. Council implements a separate process to obtain a maintenance/defects bond after the works reach practical completion. This may be used by Council to rectify any defects or unplanned maintenance associated with the WIK post-handover. This amount would be defined and administered separately to the WIK agreement.

Works commenced without an Executed WIK Agreement

42. Where works which would be the subject to a WIK Agreement have commenced or have been completed without a WIK Agreement being executed, Council will not enter into a retrospective WIK Agreement and will not reimburse the costs associated with the works undertaken.

Compliance, monitoring and review

43. Suspected breaches or misuse of this Procedure and Assessment Guidelines are to be reported to the Chief Executive Officer. Alleged breaches of this policy shall be dealt with by the processes outlined for breaches of the Code of Conduct, as detailed in the Code of Conduct and in the Procedures for the Administration of the Code of Conduct.
44. These Guidelines will be reviewed every four years or as required by legislative change or for other purposes.

Records management

45. All staff must maintain all records relevant to administering this policy in Council's electronic recordkeeping system.
